

STATEMENT OF PURPOSE

RS30189 / S1066

This legislation relates to interchange fees (also called swipe fees) charged to merchants on credit and debit card transactions. It excludes state and local sales taxes from the calculation of the amount of an interchange fee for an electronic payment transaction, such as the use of a debit or credit card. It requires a payment card network to either deduct the amount of any tax from the calculation of interchange fees on purchases, or rebate the amount of interchange fees imposed on the state or local tax portion of purchases.

FISCAL NOTE

This legislation will have no negative impact on the General Fund or local units of government. If the state or local governments have instances where they charge a sales tax on an item and it's paid for with an electronic payment, the fiscal impact will be a positive amount (for example, the Idaho State Liquor Division account will be positively impacted from the savings of sales made in the state-run Idaho State Liquor Stores).
